Together we are bigger, better and stronger.

EPN Partners AB is the result of a co-operation between several industrial companies from the north of Sweden. Highly professional and experienced companies who supply services and products to the process industry world wide.

Through the co-operation between the associated companies to EPN Partners we are able to handle very large and complex industrial projects. Together we have become bigger, better and stronger.

Through EPN Partners you will reach more than 500 professional engineers and workers.

Products & Industrial processes

We offer you the following products and industrial processes:

Dampers

Scrap Buckets

Water Cooled Panels

Cooling Block in Slag Line

Gas Ducts, Cooled and Un-Cooled

Ore Wagon

Belt Conveyor System

Lifting Vehicles

Drill Equipment

Hydraulic Equipment

Surface Decontamination Pump

Motor Support Gemex

Surface and Wear Coatings

Work Order Systems

Geographical Information Systems

Mobile Communication Systems

Non Contact Measuring Technology

Measuring Probes and Sensors

RFID System

Balancing Equipments

Diesel Generators

Electrical Motors

Phase Compensation

Frequency Converters

Low Voltage Switchgears

PLC Systems

UPS Systems

Scrap Pre-Heating and Pre-Cleaning Processes

RELITOR RTS Process

Reference projects

New Pellets Loading System KK2, LKAB

Unloading of Frozen Ore from Ore Wagon

Driver Free Control of a Caterpillar for handling of Slag from Arc Furnace
